and with  
**OPES**

*Nota di Produzione n. 3 – Martedì 26 Luglio 2022*

## **International Circus Festival of Italy: the support of the Ministry of Culture**

**The Ministry of Culture has confirmed its support for the International Circus Festival of Italy for the next three years.**

This recognition, as in previous years, motivates the entire production team to renew their efforts to maintain the reputation of the International Circus Festival of Italy on a world level.

At the same time, it is a significant indication of the attention paid towards the culture and the traditions of the Circus by a governmental department which, in so doing, lends dignity and substance to the various categories of live performance contained within it.

It is the production team's sincerest hope that the workforce of the Ministry of Culture will continue to perform its function aimed at nurturing the artistic patrimony and ancient traditions of our country. These are values that the Giulio Montico Cultural Association holds dear and remembers as we prepare to stage the International Circus Festival of Italy's 23<sup>rd</sup> edition.
